

Andy Watson, military historian and deployed AMEDD civilian, interviews LTC Derron "Tony" Alves, TF-Med-A Theater Veterinarian. Mr. Watson is a member of the Specialized MEDCOM Response Capability (SMRC) Medical History Team, deployed to collect historical information from the field.

The SMRC Medical History Team is performing its mission of historical collection. Collecting interviews and information, this is essential so that the information can be utilized and retrieved. Another part of the historical collection team's mission is to label every collected photograph and ensure interviews can be deciphered by future researchers.
