

AMEDD Civilian Corps Chief Message #19a dtd 22 Feb 12

Hi again Folks,

I need to make a correction to yesterday's message. The award-winning Biz Bowl submission from HQ, USAMEDCOM was a product of both the Program Analysis and Evaluation and the Resource Management shops. My apologies. Again, congratulations to all the members of both winning teams.

Gregg
Chief, AMEDD Civilian Corps

AMEDD Civilian Corps Chief Message #19 dtd 21 Feb 12

Hi Folks,

In previous Corps Chief messages we talked about the Wolf Pack Award, a new award created by The Surgeon General and the AMEDD Civilian Corps, to recognize exceptional teamwork by an integrated group of military and civilian team members focused on excellence in support of Army Medicine. We had a double digit number of submissions for the first quarter award opportunity and used a diverse panel to do the packet evaluations.

It is a pleasure to announce that the co-winners for the first award are Landstuhl Regional Medical Center for its work in management of Traumatic Brain Injury; and Headquarters, USAMEDCOM Resource Management for creation of the Biz Bowl competition. Both winning packets were very strong with little to differentiate their excellence. Congratulations to the winning teams and all their members! We'll present the awards in the not-too-distant future.

I want to thank all the activities that participated and encourage all activities to participate in upcoming quarters. Information on how to submit your team as a competitor for the award is available on the AMEDD Civilian Corps web site, <https://ameddciviliancorps.amedd.army.mil> under the "Celebrate Success" link on the left hand side. You can submit packets for the current quarter through the suspense of 5 April. We look forward to your participation.

Take care and be safe.
