

G'day Everyone,

This message will be very short; the full scale attack one should be out in about 10 days or less. Below are two things I ask you to please read and take to heart.

1. The invitation for folks to take the Federal Employee Viewpoint Survey (FEVS) just came out today. If you received an invitation to take the survey, I ask that you please take a few minutes and respond (I got my invitation and will complete it today). The FEVS is a safe and confidential way for you to voice your opinions about critical aspects of your job and working environment. The Army is paying very close attention to the responses and I firmly believe that our responses to this survey will drive programs that impact our civilian workforce in the future. Please take this important opportunity to help guide our Army's future focus. Thank in advance for your support!!

2. I know there are many celebration weeks going on right now and, if I try to address each individually, history shows I'll miss one (or more!). So let me say this. The week of 3-9 May is Public Service Recognition Week, and that applies to every member of the AMEDD Civilian Corps. Let me use that as an opportunity to say, "Thank you, so much!!" for all that you do every day to contribute to the mission of Army Medicine. You mean so much to our AMEDD Team and I'm both personally and professionally grateful for the opportunity to work with and for you. So there!

As promised, short message. Saddle up for the next one!! All the best.

Sincerely,

gregg

Gregg Stevens, SES
